Policy on Unauthorized Drivers and Complete Liability Voiding

Strict Rule Definition

Only individuals whose names, dates of birth, and driver's license numbers are explicitly listed on the Apex Rental Agreement are authorized to operate the rental vehicle.

Consequences of Allowing an Unauthorized Driver

If an unauthorized person operates the car for even one minute:

- 1. Total Insurance Voidance:** ALL purchased protection plans (CDW, Silver, Gold Platinum, SLI, PAI) are revoked and nullified retroactively.
- 2. Direct Personal Liability:** The primary renter becomes 100% personally responsible for all bodily injury, death, and property damage caused to third parties, as well as the complete replacement cost of the Apex vehicle.
- 3. Contract Termination:** Apex reserves the right to remotely disable the vehicle ignition via telematics and repossess the car immediately without refund.
- 4. Permanent Blacklist:** The primary renter will be permanently barred from all future Apex Car Rental reservations nationwide.
