Airport Terminal Shuttles & Rental Facilities (ConRAC)

Finding the Apex Counter at Major Airports

- **On-Airport Consolidated Rental Facilities (ConRAC):** At hubs like ORD, DFW, ATL, and LAX, follow signs for Ground Transportation / Rental Car Shuttles. Dedicated electric trains (People Movers) or airport shuttle buses transport you directly to the unified rental facility.
- **Off-Airport Depot Shuttles:** At locations with dedicated off-site facilities (e.g., JFK or LAS), board the branded **Apex Blue & White Shuttle Van** departing curbside every 10–15 minutes outside baggage claim.
- Track shuttle vans in real-time via the Apex Mobile App GPS tracker.
