Apex Express Drop-Off & Instant Digital Receipts

The 60-Second Return Flow

For fast airport departures, utilize the Apex Express Return Lane:

1. Drive into the designated **Express Return** lanes.
2. An Apex service agent scans the vehicle barcode affixed to the driver's windshield with a handheld digital terminal.
3. The scanner communicates with the vehicle telematics to instantly read exact mileage, remaining fuel percentage, and diagnostic trouble codes.
4. Hand the key fob to the agent.
5. An itemized invoice is delivered to your email inbox within 60 seconds with zero paperwork to sign.
