Mechanical Breakdown & Check Engine Warning Protocol

Immediate Safety Actions

If a mechanical malfunction occurs or the dashboard displays a flashing check engine warning:

- 1. Pull to Safety:** Safely maneuver the vehicle onto the highway shoulder or parking lot away from active traffic.
- 2. Activate Hazard Lights:** Turn on hazard flashers and set the parking brake.
- 3. Contact 24/7 Roadside Assistance:** Call **1-800-555-APEX (Prompt 1)** immediately.

Mechanical Replacement Guarantee

If an Apex vehicle suffers a mechanical breakdown not caused by customer abuse or road hazards:

- A roadside tow truck is dispatched within 45 minutes.
- Apex delivers a replacement vehicle directly to your location or arranges complimentary taxi/rideshare transportation to the nearest Apex hub.
- Renter is reimbursed for downtime or refunded the daily rate for the impacted duration.
