Flat Tire Procedures & Equipment Locations

Types of Tire Setups by Vehicle Class

- **Sedans & SUVs:** Equipped with a compact donut spare tire, tire jack, and lug wrench located beneath the trunk cargo false floor.
- **Electric Vehicles (Tesla Model 3/Y):** Due to battery weight distribution, EVs do NOT carry a spare tire. They are equipped with an emergency 12V air compressor and chemical sealant kit in the lower trunk compartment.
- **Luxury Sedans (BMW 5 Series):** Outfitted with Run-Flat tires capable of traveling up to 50 miles at a maximum speed of 50 mph following a complete puncture.

Roadside Dispatch for Tire Service

If you do not wish to change the tire yourself or lack a spare, contact Apex Roadside Dispatch. Covered at \$0 with Gold Platinum or Silver Protection; standard dispatch fee of \$75 applies under Standard Protection.
