Pre-Rental Vehicle Inspection & Walkaround Protocol

The 3-Minute Walkaround Process

Before leaving the parking bay, perform a 360-degree walkaround of the vehicle:

- 1. Check Body Panels:** Inspect front and rear bumpers, door quarter-panels, and rocker moldings for dents or scrapes.
- 2. Check Glass & Lights:** Verify no star chips on the windshield, unbroken headlights, and clean side mirrors.
- 3. Check Tires & Wheels:** Inspect tire tread depth and check for alloy wheel curb scratches.
- 4. Inspect Cabin:** Check upholstery for burns, excessive pet hair, or lingering tobacco smoke odor.

Digital Inspection Slip (Apex Scan App)

Use the Apex Mobile App or counter paper slip to photograph any pre-existing blemishes larger than 1 inch (or coin size). Our gate attendant validates and stamps your digital contract so you are never charged for prior damage.
